

# HID Refractor for Acrilux Spa.

Design in 3D

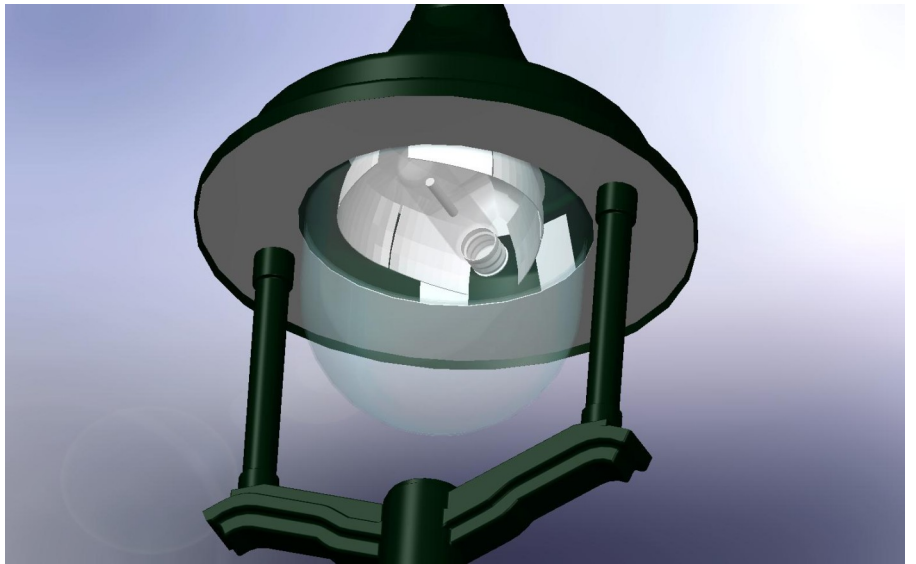

Simulation of performance using advanced Raytrace software.

Delivers class leading performance.

Optical Design

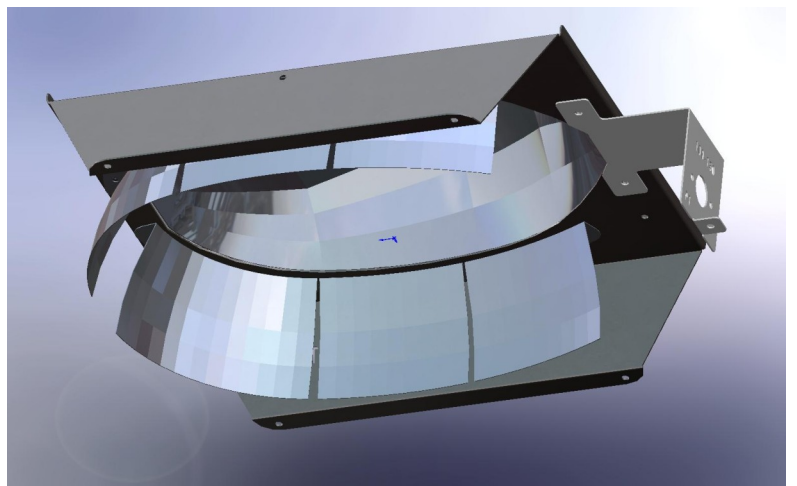

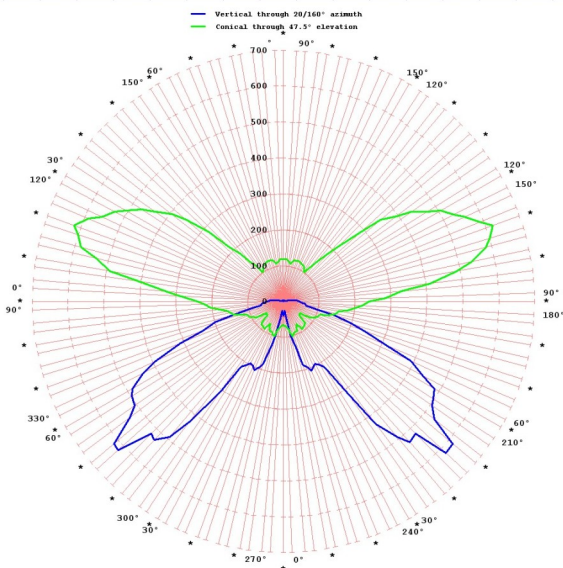

## Multi position reflector system for Metcraft Lighting.

Individual optimised reflector segments

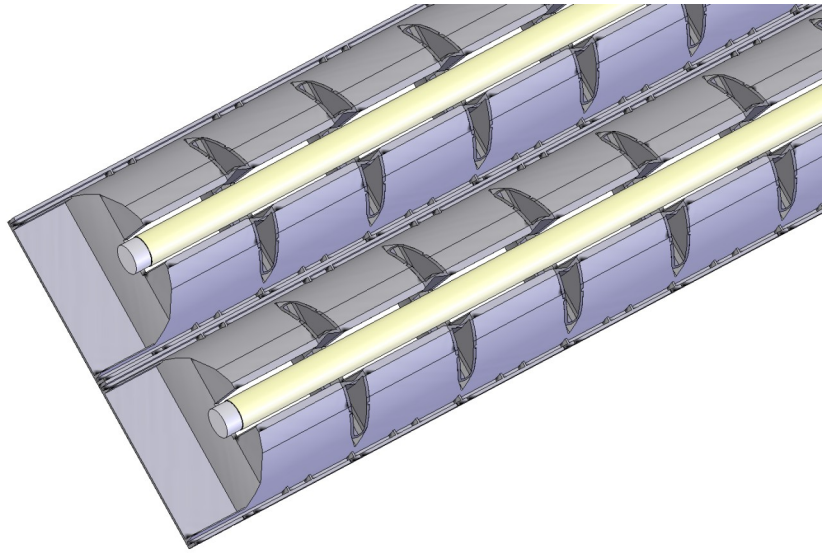

Different arrangements provide Streetlight to Amenity distribution.

Total flexibility in production.

Optical Design

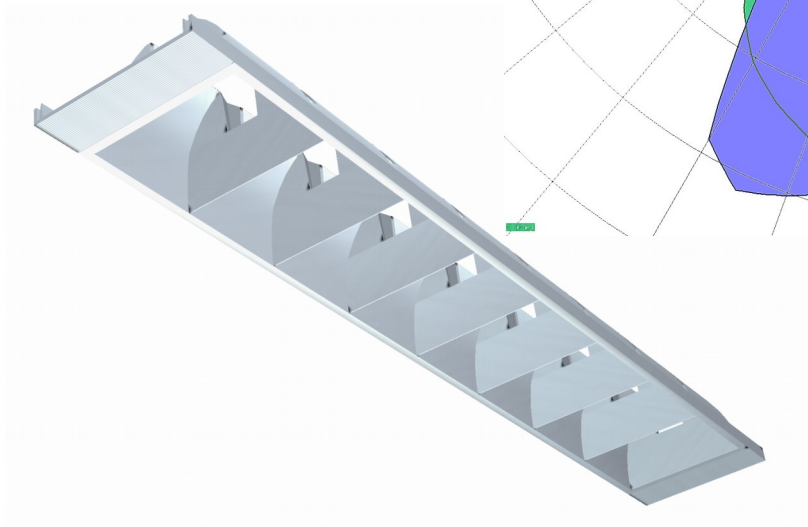

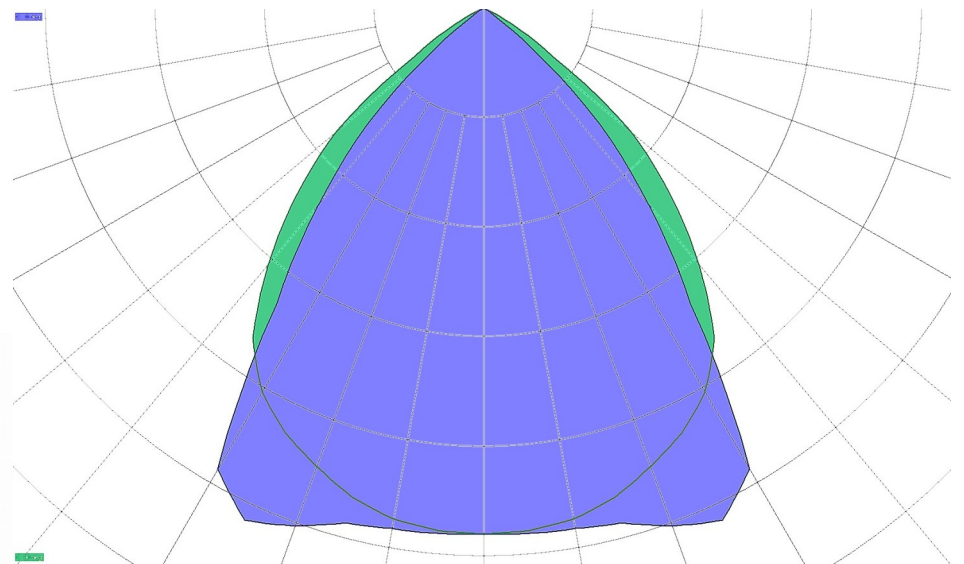

## Advanced Moulded Metalised louvre for Scientific Lighting Products USA

Design optimised for moulding  
process.

Patented features

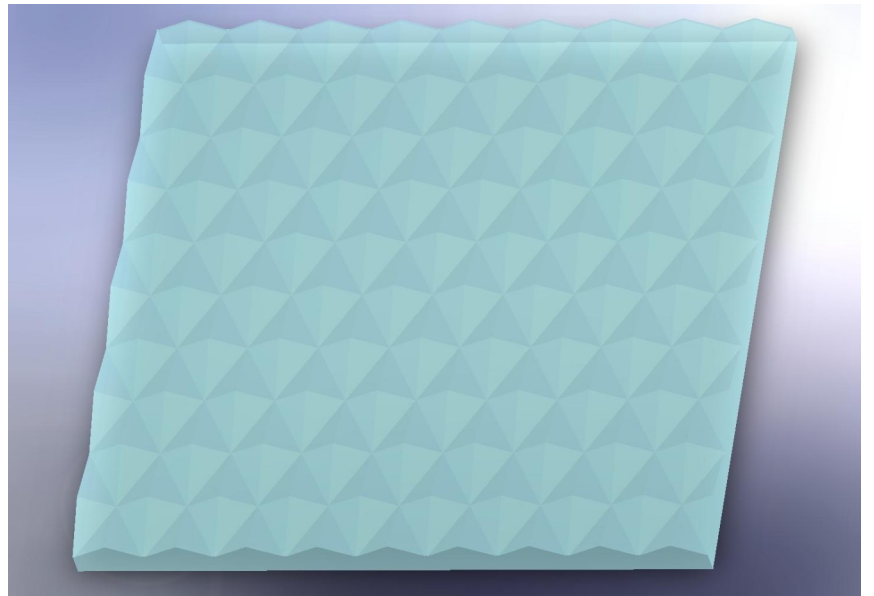

Class leading performance

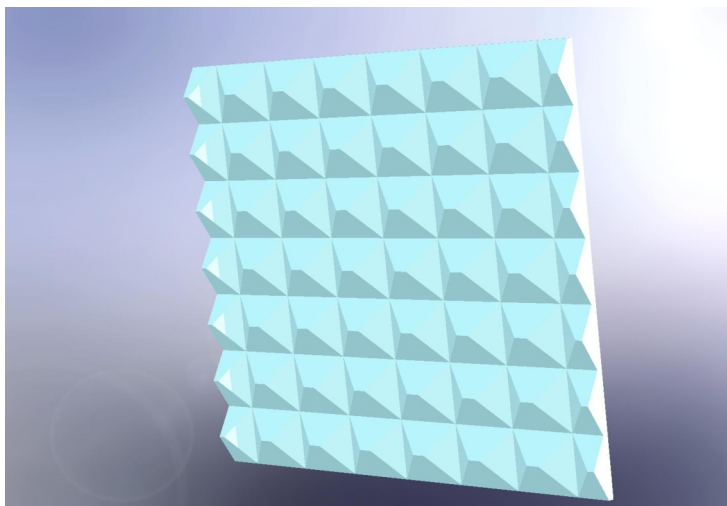

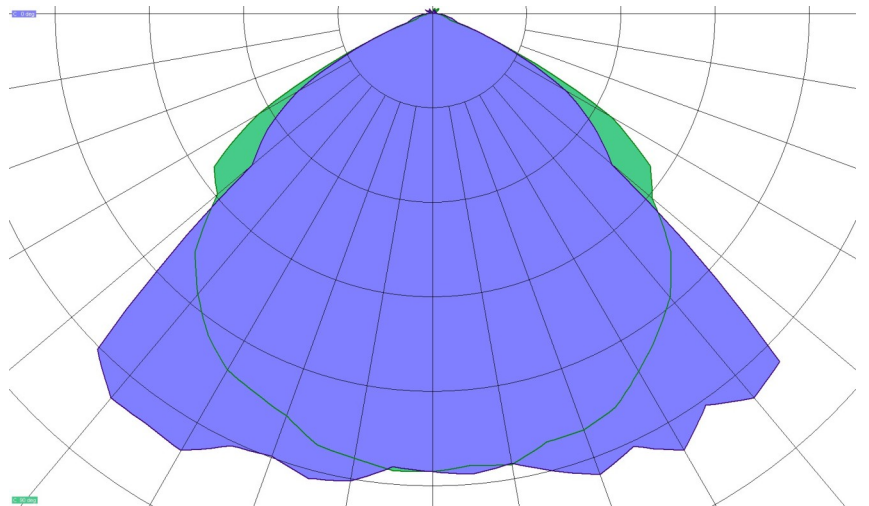

Optical Design

Extruded Optical  
Microprisms for  
SLP UK

Microprism design to obscure lamps

High efficiency in light transmission

Meets LG7 with designed back reflector

Designed for extrusion process
